

RYA Day Skipper Theory Course Distance Learning course

Busy life? Short of time to dedicate to a 5 day Day Skipper Theory classroom based course? Then consider this online option: All the RYA theory courses that we offer can now be completed online both at home or at sea, depending on your unique preferences and personal situation.

This RYA Day Skipper shorebased course is aimed towards semi-experienced sailors, who are looking to further their skills and get the Day Skipper qualification.

If you have already completed the RYA Essential Navigation & Seamanship syllabus or have reasonable boating experience, and wish to be a fully qualified Skipper but short of time to undertake a 5 day shorebased course, then this RYA Day Skipper correspondence course may just suit you. Note these courses will run on both MAC and Windows platforms.

When you sign up for our RYA Day Skipper online training course, you will have regular access to your own tutor, who will help you to get through the various modules, and Tutor Marked Assignments (TMA's) in your own timeframe whilst providing expert guidance and invaluable tuition each and every step of the way.

- Being able to learn either at home or at sea offers unrivalled flexibility

This is the second of the RYA Theory courses and covers both Power and Sail. The course is suitable for the beginner and for those who need to have a good grounding in the theory. This fully interactive course covers the complete RYA Day Skipper syllabus and is greatly enhanced with 370+ animations, relevant items of navigational history and cartoons. We make your learning both interesting and fun.

The course is fully interactive and covers the full RYA Dayskipper theory course. Step by step instructions with many colour illustrations plus the animations guide you through the course. You are allocated your own personal tutor who will mark your assessments and final exams. You can always contact your tutor if you need to clarify your learning. Ocean Training do find, that their students get very high marks owing to the step by step instructions and high quality of our course material.

The RYA Shorebased Day Skipper course is an absolute essential requirement if you wish to proceed to the RYA Day Skipper practical course. During any practical course the instructor has enough to do to teach you safety, and handling the boat and will not have time to teach you the basics of navigation, collision regulations, meteorology, electronic chartwork etc.

You are allocated your own personal tutor who will mark your assessments and final exams. You can always contact your tutor if you need to clarify your learning. The course is ideal for both Power and Sail.

The course pack consists of:-

- Full Ocean Training Interactive Course
- 375+ Animated Graphics to aid your learning
- 2 Training Charts
- Training Almanac
- Electronic Chart Tutor and Simulator
- Your own personal tutor with whom you will correspond by e-mail
- Final Examinations
- Full RYA Certification upon completion
- The electronic chart plotting simulator is included. This enables the student to get a full grasp of electronic chart plotting techniques and even includes a simulated vessel which can be used both for passage planning and simulated voyages.

Comes on a USB stick so that you get all the coursework upfront. (Ideal for slow or poor internet connection - True "Plug & Play")

Free First Class Postage within the UK. (Standard Fedex rates for the rest of the world)
